WORLD CAR IS BACK ON THE ROAD...

2019 WORLD CAR AWARDS

Celebrating the best of today. Inspiring the best of tomorrow.

Toronto - June 5, 2018

The Road to World Car journey never really stops. The 2019 edition of the World Car Awards begins today with two announcements: our list of 2019 jurors as well as our status as the number one awards program across the globe for the sixth consecutive year according to Prime Research's latest media influence report.

2019 marks the 15th anniversary of the World Car Awards which has a dual mission of celebrating the best of today and inspiring the best of tomorrow. This is accomplished via two platforms:

The Road to World Car is an annual journey in partnership with the New York International Show. The journey will follow more than 80 of our jurors as they test-drive the 2019 nominated cars. The official launch will take place in Paris this October. The journey will end when the winners are officially declared at the New York International Auto Show in April 2019. We will make a couple of stops along the way: in Los Angeles for our fifth annual test-drive event in November and in Geneva when we announce the top three finalists in March of 2019. The *World Car Garage* will be staged for the fourth year at the London Motor Show in May of 2019 offering a glimpse of the 2020 contenders as well as celebrating the 2019 winners announced earlier at the New York International Auto Show.

The Road Ahead initiative focuses on writing, broadcasting, posting and tweeting about future trends and innovations through regular newsletters and other reports from September 2018 through to April 2019. The *Global Trends Report*, co-presented by Prime Research and Autoneum, represents the culmination of seven months' worth of research and will be revealed at the New York International Auto Show in April 2019.

Together, the dual platform along with our 83 international automotive journalists have helped the World Car Awards achieve their global status as the most visible, most powerful awards programme.
